Spring 1918

For Nurserymen Only

Shenandoah Nurseries

D. S. LAKE, President

Shenandoah, : : Iowa

For Your Information

To those who are not acquainted with our concern, would say that this business was established in 1870 and is still under the same management.

We are located in Southwestern Iowa, fifty miles southeast of Omaha Nebraska. The soil here is especially adapted to the growing of a general line of nursery stock. The railroad facilities are excellent. We are on the Wabash; Chicago, Burlington and Quincy; Keokuk and Western Railroads; two express companies, the Adams and Wells-Fargo, give us good service. We take pleasure in showing visitors over our grounds at any time.

TERMS OF SALE

Shipping—With the exception of Evergreens and some heavy shade trees we are in position to ship assorted orders all through the winter, and can, as a rule, get refrigerator service, although we do not guarantee this. Can begin to dig trees in this latitude usually abou March 10. Parties ordering goods should indicate whether they wish them sent by freight, express or parcel post, also route. In the absence of these instructions, we forward them to the best of our jndgment, but in no case will we assume responsibility after consignment to purchaser. When losses occur by delays or other causes of whatever nature while goods are in transit, make claim AT ONCE on the forwarding companies. All shipments travel at the risk and cost of the purchaser.

Terms—Cash or security before shipment of goods, except with established firms when, if unknown to us, satisfactory references will be required before goods are forwarded Orders to be sent C. O. D. should be accompanied by one-fourth cash.

Prices—Are limited to Spring 1918, and supersede all previous quotations on stock herein listed and are subject to change without notice.

Caution—We accept all orders on condition that they shall be void should any injury befall stock from frost, fire, hail, storms or other causes over which we have no control Also, all imported stock is sold subject to arrival without engagement, and subject to war conditions.

Claims—For any cause will receive consideration only when made within ten days after arrival of goods. In no case will we entertain claims made after the goods have been once accepted.

Packing—Prices contained herein are net; cost of boxing and baling will be added except on grafts, which are boxed free.

Grades—We grade carefully; in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern.

Certificate of Inspection—Will be furnished with each shipment.

Guarantee of Genuineness—If any nursery stock, etc., proves untrue to description under which it was sold, we hold ourselves in readiness on proper proof, to replace all such nursery stock, etc., that may prove otherwise, or refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

LINING OUT STOCK

We have a limited amount of ornamental stock for planting out in the nursery row. Send list of your wants for prices.

ROOT GRAFTS

There are two reasons why you should make a plant of apple this coming spring; the demand for apple trees is increasing and the supply is decreasing.

Unless you have experienced help, you will find it cheaper and better to have us do your grafting. We have a large force of expert men, who devote their time during the winter months exclusively to this department. The grafting cellars are located close by our office and no part of our business receives more careful personal attention.

We are prepared to put up grafts of any style or length wanted, and make the price accordingly. We use the best of materials; orchard scions are used extensively and selected hardy seedlings grown by us from the best crab seed that we can procure.

While we are prepared to do machine wrapping, yet for our own planting we prefer the hand work, which seems to give very satisfactory results. Each order is grafted by itself and packed separately until shipped. They are re-packed and inspected several times during the winter, so they are in the best of condition at shipping time.

We are now grafting and it is important that orders be placed at once, so we can put them up while we are organized for this work and while our list of varieties is complete.

As our grafts are put up in bunches of one hundred, do not order a less amount of any one variety. We will be glad to mail samples upon request.

APPLE AND CRAB, PIECE ROOT GRAFTS

Piece root grafts are made by using about six inches of scion and three and one-half inches of root. They are tongued fogether and securely wrapped at the union, making the entire graft about eight and one-half inches long. This style of graft we use mostly in our own plantings.

APPLE AND CRAB, COLLAR GRAFTS

These are made by using six inches of scion and five inches of 3-16 inch and up roots, all collar cuts.

	Per 1000
5,000 and up	$ 7 00

APPLE AND CRAB, WHOLE ROOT GRAFTS

This style of graft is made by using about six inches of scion and the entire seedling making union at the collar and wrapping with waxed thread which holds it firmly until calloused. Many nurserymen prefer to plant this kind of graft, claiming that they get a larger growth owing to the well formed root system.
